

WINTERIZING YOUR BOAT

FIRST THINGS FIRST

- Remove any water or materials susceptible to moisture from the interior
- Wash, dry, clean, and wax

FUEL, ENGINE, AND COOLANT SYSTEM

- Fill fuel tanks and add stabilizer to gasoline
- Change the oil and filter
- Drain, flush with water, and fill the coolant system with a properly diluted antifreeze solution
- Fog the engine and grease all moving parts
- Loosen or remove drive belts

BATTERY

- Disconnect the battery and charge occasionally

STORAGE PREP

- Seal any exhaust ports to protect from animals and pests
- Properly cover
- Pick a storage option: outdoor, storage unit, dry stack, or indoor

INSURANCE

- Talk to your agent
- Take an inventory and check your policy for limits, exclusions, programs, and discounts
