

# WINTERIZING YOUR MOTORCYCLE

## FIRST THINGS FIRST

- Wash and inspect that bad boy

## GENERAL MAINTENANCE

- Change the oil and filter
- Fill the gas tank and prep the fuel system

## DAMAGE PREVENTION

- Lubricate the moving parts
- Safeguard the battery; remove and charge or hookup to a battery tender
- Check your coolant system for proper levels of anti-freeze

## STORAGE

- Move to a warm, dry place (i.e., garage or shed)
- Protect the tires by keeping them off the ground with a motorcycle stand, slightly rotating them every few weeks, or putting a buffer between them and the ground
- Cover the mufflers and plug the pipes
- Properly cover the entire motorcycle

## INSURANCE

- Talk to your agent
  - Ask if lay up policies are available in your area
  - Ask about seasonal ratings
- Consider storage insurance and theft protection
- Take an inventory and check your policy for limits, exclusions, programs, and discounts
